

OPTIONS AND ADD-ONS

Advanced presorts, data sets and Utilities

Expand Bulk Mailer as your business grows. Easily choose and install new features through the Add-on Manager. Additional data enhancement options and advanced presorts expand Bulk Mailer to meet the most demanding mailing requirements. Move Update is available for Bulk Mailer Standard. All other add-ons require Bulk Mailer Professional or Business.

Data Enhancement

Move Update Credits

Pre-purchase Move Update credits to process change-of-address updates in real-time* via the Internet. Each address checked against our 48-month NCOALink dataset deducts one credit from your account. An annual contract for unlimited Move Update processing is available.

Geocode

Append latitude and longitude information during the address correction process. Use this data to send geographically targeted

Rdi™ interface

Mark residential addresses so that you can choose the most appropriate shipping option. Requires an additional USPS RDI license.

Monthly Updates

Mailers who need the very latest USPS address dataset may upgrade from the standard bi-monthly cycle to monthly Bulk Mailer updates.

Advanced presorting

package services

Extend presort capabilities with Bound Printed Matter, Media and Library Mail classifications.

Mixed Weights

Combine otherwise identical pieces of different weight and thickness in one mailing. Available for First-Class Mail®, Standard Mail® and Package Services.

palletization

Organize large numbers of tray-based, sack-based and package-based pallet presorts for Standard Mail and Periodicals.

Utilities

Merge/purge

Combine, compare and de-duplicate two or more lists of different file types. Process lists against a suppression to meet Do-Not-Mail requirements. Reports summarize or itemize the results of the process.

Mail.dat®

Generate Mail.dat files for electronically submitting mailing documentation to USPS through PostalOne!® instead of traditional hardcopy paperwork.

Move Update server

Companies that require in-house change-of-address processing may host our USPS® certified NCOALink® Move Update server. Provide change-of-address processing for yourself or others with full control over fees and system infrastructure. Additional USPS NCOALink license fees apply.
